

Edil Con L. Gorospe

Full Stack Developer | AI Engineer | Python & RAG Pipelines | Laravel/PHP Developer

Pinamalan, Philippines PHT | gorospeedilcon@gmail.com | +09 291 706 231 | linkedin.com/in/Edil Con L. Gorospe | github.com/GigaNuke3

PROFESSIONAL SUMMARY

Aspiring AI Engineer with hands-on experience across 4 self-built projects, skilled in Python, LangChain, and Retrieval-Augmented Generation (RAG) pipeline development. Built and debugged full RAG systems from first principles through Chroma and Ollama, and shipped production-grade full-stack applications in PHP/Laravel. Known for rapid self-teaching and turning half-finished side projects into fully working, documented, deployed systems.

CORE SKILLS

AI Engineering: Python, LangChain, Retrieval-Augmented Generation (RAG), Vector Embeddings, Chroma (Vector Database), LLMs, Prompt Engineering, HuggingFace, Fast APIs, SQLite

Web Development: PHP, Laravel, MySQL, Eloquent ORM, Blade, RESTful APIs, JavaScript, Electron.js, HTML, CSS, Back End, Front End, RESTFULL APIs, Web design

Tools & Platforms: Git/GitHub, Linux (Fedora) Administration, phpMyAdmin, Hostinger Deployment, SQLite

Strengths: Self-Directed Learning, Root-Cause Debugging, Technical Documentation

TECHNICAL PROJECTS

Callama — Offline AI Desktop Assistant 2026

Personal Project | Electron.js, Ollama, SQLite, LangChain concepts

- Built an offline-first Electron desktop app integrating local LLMs via Ollama, including a full memory/RAG system using nomic-embed-text embeddings and cosine-similarity retrieval scoped across chat topics
- Diagnosed and fixed 5+ production-grade concurrency and context-window bugs (race conditions in shared chat memory, token-budget overflow) using systematic diagnostic logging rather than guesswork
- Packaged and shipped a working Windows installer (electron-builder/NSIS) with automated Ollama installation.

E-LIB — Library Management Information System 2026

Capstone Project | PHP, MySQL | Live: e-librari.online

- Developed and deployed a full-stack Library Management Information System in native PHP/MySQL, live in production on Hostinger
- Built an admin-only document storage and archiving module with database-backed uploads and automated Excel-export reporting
- Authored complete end-user documentation (35 appendices) for formal capstone submission

PROFESSIONAL EXPERIENCE

IT Support & Documentation — On-the-Job Training (OJT)

March/ Jun 2026

TESDA MIMAROPA Regional Office | Oriental Mindoro Provincial Office

- Provided hands-on IT troubleshooting support for hardware and software issues
- Produced technical documentation for internal processes and support cases

EDUCATION

Bachelor of Science in Information Technology (BSIT)

2026

Polytechnic University of the Philippines Bansud Campus | Bansud, Oriental Mindoro, Philippines

CERTIFICATIONS & TRAINING

- Salesforce Certification, 2026
- Salesforce Supported Virtual Internship Program • 2025
